PROJECTS

NoteSupp – React Notes Application

-jan 2026

Tech Stack: React., React Hooks, Local Storage

- Developed a Notes Management application using React with Hooks for dynamic creation, viewing, and deletion of notes.
- Designed a responsive and user-friendly interface for seamless usability across devices.
- Demonstrated component-based architecture, dynamic rendering, and frontend data handling.

ShopEase – React E-Commerce Web Application

-Nov 2025

Tech Stack: React, React Bootstrap, RESTful APIs

- Developed a responsive e-commerce web application using React.js, integrating products dynamically from the Fake Store API.
- Implemented product listing, product details, and category-based filtering using RESTful APIs.
- Utilized React Hooks (useState, useEffect) and a component-based architecture to ensure clean, scalable, and maintainable code.

PortFolio-React Application

-Oct 2025

Tech Stack: React, CSS, JavaScript, HTML, Responsive Design

- Developed a personal portfolio using React.js with a clean and modern layout.
- Implemented an interactive sidebar and seamless navigation to highlight projects and skills.
- Ensured full responsiveness for optimal viewing across desktops, tablets, and mobile devices.
